

ANAS SHIRAZ

Frontend Developer | Aspiring Full Stack Developer

Srinagar, J&K, India • anasshiraz666@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

PROFILE

BCA Hons. student and Frontend Developer focused on building modern, responsive, and user-friendly web applications. Experienced with JavaScript, React, Tailwind CSS, Redux, and React Router, with hands-on experience building and deploying real-world projects. Currently expanding into backend development with Python and FastAPI, with the goal of becoming a Full Stack Developer. Open to internship and entry-level opportunities.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React, Tailwind CSS
State & Routing	Redux Toolkit, React Router
Backend / Services	Python, FastAPI (learning), Appwrite, REST APIs
Tools	Git, GitHub, Vite

PROJECTS

Appwrite Blog App

React, Vite, Redux Toolkit, React Router, Appwrite, TinyMCE, Tailwind CSS

- Built a full-featured blog application with authentication, post creation, editing, deletion, and image management.
- Implemented client-side state management and routing using Redux Toolkit and React Router.
- Integrated Appwrite for backend services, authentication, database operations, and image storage.
- Deployed the application on Vercel.

Currency Converter

React, Vite, Tailwind CSS, JavaScript, REST API, Custom Hooks

- Built a responsive currency converter using live exchange-rate data from a REST API.
- Implemented reusable custom hooks, currency swapping, dynamic conversion, and responsive UI.
- Designed a modern interface with a focus on usability and mobile responsiveness.
- Deployed the application on Vercel.

Developer Portfolio

React, Vite, Tailwind CSS, React Router, EmailJS

- Designed and developed a responsive multi-page developer portfolio to showcase projects, skills, education, and contact information.
- Implemented reusable components, route-based pages, dark mode, responsive layouts, and subtle animations.
- Integrated EmailJS to provide a functional contact form.
- Deployed the portfolio on Vercel.

EDUCATION

Bachelor of Computer Applications (BCA Hons.)

CASET College of Computer Sciences, Srinagar, J&K, India | Present

CURRENTLY LEARNING

Python → FastAPI → REST APIs → Databases → Full-Stack Development

CAREER OBJECTIVE

Seeking an internship or entry-level software development opportunity where I can apply my frontend skills, learn from experienced developers, contribute to real-world projects, and continue growing toward full-stack development.
